Professional Summary

Results-driven **Data Analyst** with **3.7+ years** of progressive experience at **Infosys Limited**, building **Power BI** dashboards, automating reporting workflows with **Python** and **Advanced SQL**, and delivering **workforce and operational analytics** within enterprise IT environments. **Microsoft Certified Power BI Data Analyst (PL-300)** with hands-on expertise in **DAX**, **Power Query**, **Python (Pandas, NumPy)**, and **Advanced SQL** (CTEs, Window Functions, Subqueries). Consistently advanced from System Engineer to Technology Analyst by demonstrating measurable impact — **transforming complex operational datasets into executive-ready insights** that drive SLA performance, resource planning, and data-driven decision-making across large-scale enterprise delivery accounts.

Technical Skills

Data Visualisation: Power BI (DAX, Power Query), Tableau, Advanced Excel (PivotTables, Power Query, VLOOKUP, Macros), Google Sheets

Programming & Querying: Python (Pandas, NumPy, Matplotlib), Advanced SQL (CTEs, Window Functions, Subqueries, Joins), MySQL, Jupyter Notebook

Analytics Techniques: ETL, KPI Dashboard Development, RCA, Data Modelling, Trend Analysis, Reporting Automation, Data Cleaning, Statistical Analysis

Analytics Domains: Workforce Analytics, Operational Analytics, HR Analytics, Business Intelligence, ITSM Analytics

Cloud & Platforms: Microsoft Azure, ServiceNow, SharePoint, Confluence, Jira, Power Automate

Tools & Productivity: VS Code, Git, GitHub, PowerShell

Experience

Infosys Limited

Technology Analyst — Data Analyst

Nov 2022 – Present

Hyderabad, Telangana

- Designed and deployed **23+ Power BI** dashboards and automated reporting solutions consolidating **SQL**-queried operational and workforce datasets, enabling **real-time KPI tracking** across **3+** business units and **reducing executive reporting turnaround from 3 days to 4 hours**.
- Analysed high-volume service delivery and workforce data (**25K+** ServiceNow incidents; **15K+** operational records) using **Python (Pandas, NumPy)** and **Advanced SQL** (CTEs, Window Functions, aggregations), surfacing **actionable insights** across SLA adherence, escalation trends, shift utilisation, and performance bottlenecks.
- Automated **12+** recurring reporting and data validation workflows using **Python** and **PowerShell**, **reducing manual reporting effort by ~60%** and improving data accuracy across CIS-EUC operational reporting cycles.
- Developed end-to-end **KM reporting pipeline** using **Power BI** and **Advanced Excel** (PivotTables, statistical analysis), improving leadership visibility into ticket reduction trends and KB utilisation metrics; **increased KB utilisation by 30%** and **reduced repeat ticket volumes by ~20%** through data-driven SOP/KB mapping.
- Integrated **SharePoint** Knowledge Hub, SOP repositories, runbooks, and **ServiceNow** data into a **centralised governance reporting system**, enabling end-to-end KB lifecycle management and knowledge accuracy tracking.
- Automated KB approval workflows and **SharePoint** integrations using **Power Automate**, **reducing manual maintenance effort by 45%** and improving content lifecycle governance across **3** client accounts.
- Led **Knowledge Management Forum** for **3 accounts**, conducting structured analysis of ticket trends, resolution patterns, and escalation data to **improve first-call resolution rates** and reduce L2 escalation dependency.
- Earned consistent recognition for performance and initiative, progressing from **System Engineer** to **Technology Analyst** within 3.7 years.

Certifications & Credentials

- Microsoft Certified:** Power BI Data Analyst Associate (**PL-300**) | Azure Fundamentals (**AZ-900**) | Azure Data Fundamentals (**DP-900**)
- Infosys Certified: Business Analyst Associate | Database & SQL Professional | Python Associate | Gen AI Professional | Data Privacy Consultant
- Data Analytics Certification — Skillovilla | Accredited by Wipro & FutureSkills Prime (NASSCOM) - 2025
- Rookie of the Quarter — Q4 2024, Infosys CIS RISE Awards*

Key Projects

IT Service Desk & Knowledge Analytics Dashboard (1.2 Years) *Power BI / SQL / Excel / ServiceNow / SharePoint*

- Analysed **25K+** **ServiceNow** incidents, requests, and operational records using **SQL** and **Power BI**, building dashboards for **SLA compliance**, ticket ageing, escalation trends, **MTTR** analysis, incident-to-KB mapping, and **workforce utilisation** — **improving service visibility for operational leadership**.
- Automated reporting and approval workflows using **Power Automate**, **reducing manual reporting effort by 40%** and improving reporting turnaround time across the IT service desk function.
- Integrated **SharePoint** Knowledge Hub, SOP repositories, runbooks, and **ServiceNow** data into a **centralised governance reporting system**, enabling **end-to-end KB lifecycle management** and knowledge accuracy tracking.

Workforce Productivity & Operational Analytics (1.3+ Year — Current) *SQL / Python / Power BI / Excel*

- Processed and analysed **15K+** workforce and operational records using **SQL** and **Python (Pandas)** to identify productivity trends, workload distribution patterns, shift utilisation, and performance bottlenecks across delivery operations.
- Built interactive **Power BI** dashboards monitoring **workforce utilisation**, shift efficiency, employee productivity KPIs, attendance trends, and resource optimisation metrics for executive and operational stakeholders.
- Automated recurring reporting workflows using **Python**, **reducing manual effort by 35%** and improving reporting accuracy; generated **executive KPI reports** enabling **data-driven workforce planning decisions**.

KB Effectiveness & KM Governance Analytics (8 Months) *SharePoint / SQL / Python / Excel / Power Automate*

- Designed analytics and reporting frameworks using **SQL**, **Python**, and **Excel** to monitor KB utilisation rate, knowledge accuracy, incident-to-KB mapping, and reusability metrics, **improving Knowledge Base (KB) governance visibility across the enterprise**.
- Automated KB approval workflows and **SharePoint** integrations using **Power Automate**, **reducing manual maintenance effort by 45%** and improving content lifecycle governance.
- Improved KB adoption and **self-service efficiency by ~30%** through taxonomy-based KB structures, governance-driven content optimisation, and **Knowledge Management (KM) maturity assessments** covering usage, training effectiveness, and process compliance.

Education

Malla Reddy Engineering College

B.Tech in Mechanical Engineering / CGPA: 8.56 / 10.0

2018 – 2022

Hyderabad, Telangana
